

## RURAL SECURITY

---

### GRAIN SECURITY

**Grain, hay and seed are a valuable commodity and this makes them a good target for thieves. Some thefts may be from those working in the industry.**

- Grain, hay and seed should be stored in locked silos, bins or sheds.
- Ensure storage areas are well lit.
- Loading equipment should be padlocked when not in use.
- Silos and other storage should be located in a high visibility area preferably within sight of the main residence or neighbour's residence.
- Don't leave trucks with grain standing overnight in paddocks. It is better to have them stored close to the main sheds and house.
- Ideally, have a weighbridge on your farm to weigh trucks before they leave your property.

For further information on rural security see the SA Police [Rural-Security-Booklet](#) at [www.police.sa.gov.au](http://www.police.sa.gov.au)
