Dear Ms Sandy,

Re: Freedom of Information Act application

I refer to your application made pursuant to the Freedom of Information (FOI) Act 1991 in which access was sought to the following information:

"Specifically, I am seeking access to documents, photos and video footage, produced since 1 January, 2017 to the date of this application relating to:

- a) Traffic infringements, including speeding, drink driving, parking fines and accidents involving police vehicles, including marked and unmarked.*
- b) In relation to accidents, please limit to only those where the driver of the police vehicle was at fault, or it isn't mentioned/determined who was at fault.*

Without limiting my application, I would expect it to include date of the offence, details of the offence, the penalty incurred, when and where it occurred. However, if there is a spreadsheet with this information, I'm happy to limit to just that spreadsheet in relation to all but the vehicle accidents of which I would also expect the inclusion of along with any related photos/CCTV/video footage.

Please exclude third party personal details such as names and addresses. Please exclude duplicates, documents that have already been publicly released, media reports/article/statements and any correspondence with media. I consent to edited copies of documents/video with exempt material redacted/pixelated. Please note, I do not consent to documents being deemed irrelevant without consultation."

On 26 November 2018, I advised you by email that South Australia Police (SAPOL) does not hold or maintain a database that records traffic infringements that have been issued to drivers of SAPOL vehicles. I suggested that SAPOL could provide statistical data on the number of expiation notices issued to drivers of Police vehicles and database showing information with regard to police vehicle collisions where the driver of the police vehicle was at fault. Further, a random selection of 10 vehicle collision reports can be examined in an attempt to locate any photographs or video footage of the incident. You replied on 27 November 2018 via email: *"thanks for the suggested scope. I confirm I agree and ask you to proceed on this basis."*

In relation to this part of your request:

*"Specifically, I am seeking access to documents, photos and video footage, produced since 1 January, 2017 to the date of this application relating to:
a) Traffic infringements, including speeding, drink driving, parking fines and ... involving police vehicles, including marked and unmarked."*

As per your agreed narrowed scope on 27 November 2018, It is determined to **release in full** the statistical information regarding the number of expiation noticed issued to SAPOL employees for traffic related offences.

During the time period 1 January 2017 to 31 October 2018, **105 expiation notices** were issued to SAPOL employees. This information was correct as of 1 November 2018.

In relation to this part of your request:

*"Specifically, I am seeking access to documents, photos and video footage, produced since 1 January, 2017 to the date of this application relating to:
a) ...
b) In relation to accidents, please limit to only those where the driver of the police vehicle was at fault, or it isn't mentioned/determined who was at fault."*

Without limiting my application, I would expect it to include date of the offence, details of the offence, the penalty incurred, when and where it occurred. However, if there is a spreadsheet with this information, I'm happy to limit to just that spreadsheet in relation to all but the vehicle accidents of which I would also expect the inclusion of along with any related photos/CCTV/video footage."

SAPOL has located documents that are associated with the narrowed wording of your FOI application. The documents are numbered and described in the following schedule.

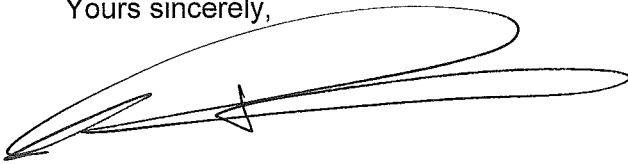

SA POLICE - FREEDOM OF INFORMATION UNIT SCHEDULE				
No.	Document Description	Status	Act	Reason
1	A database table of SAPOL Vehicle Collision information consisting of 14 pages	Full Release		
2	A DVD containing scanned images from 10 randomly selected SAPOL Vehicle Collision Reports.			

In accordance with the requirements of Premier and Cabinet Circular PC045, details of your FOI application, and the documents to which you are given access, will be published on the SAPOL website Disclosure Log. A copy of PC045 can be found at <http://dpc.sa.gov.au/what-we-do/services-for-government/premier-and-cabinet-circulars>. If you disagree with publication, please advise the undersigned in writing by 20 December 2018.

Your rights to review

If you are dissatisfied with the determination for access to SAPOL records, you are entitled to exercise your right of internal review in accordance with section 29(1) of the FOI Act by completing a PD362 Application for Internal Review form which can be downloaded from <https://www.police.sa.gov.au/services-and-events/freedom-of-information> or available upon request at your nearest police station. Alternatively an application may be made in writing to the SAPOL Freedom of Information Unit. This application must be lodged within 30 days from the date of this determination with a fee of \$35.00. Such a fee may be waived in the event of an exemption being claimed.

Yours sincerely,

1800062393	16/05/2018	MOS SRLSA	Hit another vehicle	Y	N	1,995.68	TIER 2 – Unit 1 (civilian) travelling south at low speed in the left lane on Marion Road, Plympton, approaching the junction of Anzac Highway. Traffic had just started moving off on a green signal to proceed south on Marion Road. Unit 1 intended to turn left on Anzac Highway to travel east and commenced to move into the left slip lane. Unit 2 (police fleet) travelling south at low speed in the left lane of Marion Road, Plympton. Unit 2 indicated to turn left into the driveway of the OTR service station at Plympton. Unit 1 was in the blind spot of unit 2 as unit 2 turned into the driveway and a collision occurred. Assessment by the investigator that the collision is an accident where both drivers made slight errors of judgement with no deliberate disregard of the ARR. Further, the location of the OTR driveway in relation to the beginning of the left turn lane onto Anzac Highway, can be easily considered a contributing factor.

1800108705	25/08/2018	SOS BALSA	Hit fixed object	Y	N	7,584.00	TIER 2 - Unit 1 (police fleet) undertaking Operation Safe Speed duties, parked and positioned at the junction of the Sturt Highway and Best Road, Shea-Oak Log. This location was assessed by the two members as the safest to undertake static laser duties for traffic using Sturt Highway. The location has two lanes in either direction separated by a grassed median which provided drainage for the roadway in the form of a shallow grassed culvert. The parked fleet was adjacent to the north-east bound lanes and not directly in line with the sealed median opening which provides access to Best Road and both directions of Sturt Highway. Whilst at the location members detected a speeding vehicle (166/110) travelling south-west. One member put the fleet in motion preparing to travel south-west and conduct a traffic stop. The member drove the fleet directly forward which was to the right of the sealed roadway and through the grassed culvert, colliding with a ground level metal drain cover. Damage sustained to fleet (both right side tyres deflated, both rims damaged and lower right side of front bumper). MA provided 12/11/18.
