Dear Ms Sandy,

Re: Freedom of Information Act application

In reference to your application made pursuant to the Freedom of Information (FOI) Act 1991, access was sought to:

"Documents since 1 January, 2019, specifically reports, briefings and attachments and photos and CCTV/video footage, relating to damage to wilful damage incidents where SA Police were the victim. I would expect this to include incidents where someone rams a police car, jail cell fires, drive-bys. Please include the numbers each year of wilful damage incidents where NSW Police were the victim and the cost to repair, but limit incident reports to just those where CCTV/video footage where CCTV/video footage is captured. If more than 10 incidents with CCTV/video footage are captured, please limit to the first 10 incident reports and related CCTV/video footage located. Please undertake searches for footage chronologically from 1 January 2019. Please exclude duplicates, documents that have already been publicly released, media statements/reports/articles and correspondence with media. I consent to documents/video beings released with personal material redacted/pixilated."

I refer to your email dated 23 September 2020 where you confirmed the scope to South Australia Police (SAPOL) documents including CCTV / video and photographs.

I refer to your email dated 30 November 2020 where you agreed to narrow the scope of your request to Custom Occurrence Reports.

Pursuant to Section 27 of the FOI Act unsuccessful attempts have been made to contact two businesses owners to seek their views regarding the release of information concerning their business affairs. It has been determined to refuse access to their business affairs.

It is important to note the statistical data regarding property damage was extracted from the South Australia Police Shield data management system where the victim organisation was listed as Police or SAPOL. The data may not necessarily return all records as it is unknown if this field is mandatory.

In making this determination it should be noted parts of the document that do not fall within the scope of your application have been redacted and marked as **Out of Scope**. It should be further noted regarding audio visual material document 6C is visual only.

This determination was made on 29 December 2020.

In relation to the following part of your request:

"...Please include the numbers each year of wilful damage incidents where SA Police were the victim..."

It is determined for the 2019 calendar year there were nine (9) property damages reported where SAPOL was listed as the victim. The data was correct as at 24 September 2020.

It is determined for the period 1 January 2020 to 23 September 2020 there were twelve (12) reported property damages where SAPOL was listed as the victim. The data was correct as at 24 September 2020.

In relation to the following part of your request:

"...and the cost of repair...but limit incident reports to just those where CCTV/video footage where CCTV/video footage is captured..."

SAPOL has located documents that fall within the scope of your request. The documents are numbered and described in the following schedule. The schedule contains the details of the determination in compliance with section 23. In particular, note the grounds on which access has been refused, including the reasons which are contained in the schedule.
