### Urban Design Charter

The design of all new police facilities being built by SAPOL are undertaken in the spirit of the Urban Design Charter.

The new Henley Beach Police Station will provide Henley Beach with modern police facilities designed to provide improved functionality to meet current policy needs and modernised policing services.

SAPOL recognises the need to provide design solutions that provide best practice passive design measures, with complementary active systems that maximise design outcomes in order to benefit the environment and to comply with the Government Urban Design Charter ESD initiatives and office accommodation standards.
