E-MAILED
SR 3/2MINUTES *forming* ENCLOSURE toMPO
MLO0174/17**TO: HON MINISTER FOR POLICE****RE: BUDGET ESTIMATES – DRIVER DRUG TESTING EXPANSION**

At our regular meeting on 30 January 2017, you requested for information regarding the expansion of driver drug testing.

SAPOL commits to undertake 47,000 drug screening tests a year which has been funded to the amount of \$1,478,869. These tests are conducted on a State-wide basis and are presently undertaken by traffic enforcement officers who are fully trained in all facets of the process. In the rural local service areas, general duty officers are also trained to assist traffic enforcement officers in the process as screeners only.

DPTI have prepared a Cabinet submission for changes to drug driving penalties. Approval to draft has been given by Cabinet for this submission and a draft Bill has been prepared. This draft Bill also contains a request by SAPOL to make changes to the current driver drug testing process by removing the oral fluid analysis (OFA) procedure and replace it with an oral fluid collection procedure. This process will see time and cost benefits for SAPOL and will streamline the drug driving process for positive drivers. It is expected that the new process will commence on 1 July 2017. The new process will provide SAPOL with a product that can be used in the general duty environment.

SAPOL savings from not undertaking a second testing will be redirected in the first instance to meet the higher Forensic Services South Australia (FSSA) costs for providing services against the baseline of 47,000 tests.

SAPOL could implement and sustain an increase in the number of drug tests undertaken of up to 25% on a per annum basis. This proposal would see drug screenings increase from 47,000 tests per year to 58,750 (an increase of 11,750) tests. The positive test ratio would be 11% leading to a further estimated 1,293 drivers being positive. Under the proposal the additional tests would be allocated more widely to include general duty police, providing a benefit of drug testing being undertaken on a 24/7 basis across the State.

SAPOL has also considered the effect of increasing drug testing by 50% or 100%, but have discounted those proposals due to the significant cost and resource impact.

A 50% increase of drug tests undertaken on a per annum basis would result in an increase of 23,500 tests, which with a positive test ratio of 11% would see an

additional 2,585 drivers being positive. A 100% increase would result in an increase of 47,000 tests, which with a positive test ratio of 11% would lead to a further 5170 drivers being positive.

Indicative expenditure for increasing driver drug testing by 25, 50 & 100 percent is set out below.

	25% \$'000	50% \$'000	100% \$'000
SAPOL	343	652	1,224
FSSA			
Testing	130	260	520
Staffing	-	300	300
Capital	-	500	500
	473	1,712	2,844

A significant consideration in limiting any increase in drug testing to 25% is the impact on FSSA. FSSA is a key stakeholder in any change to the driver drug testing volumes. FSSA have advised that any increase in testing of 50% or more will require the employment of additional staff, and an additional analysis instrument. (The above FSSA figures assume costs associated with two additional analysts, analysis instrument and a cost per sample analysis of \$100.)

Further clarification and confirmation of costs will occur if expansion of driver drug testing is progressed.

Any proposed bilateral bid that increases testing to over the 47,000 base line will have a resource impact on FSSA and would only be attainable if FSSA are successful in a multi-lateral bid to increase their staff and equipment budget. Additional funds would be subject of a 2017/18 multi-lateral budget bid, by FSSA, with SAPOL as the lead agency.

COMMISSIONER'S BRIEFING PAPER

SUBJECT: Driver Drug Testing Expansion

BACKGROUND:

A request has been made by the Commissioner for budget estimates for a consideration to increase the volume of driver drug tests conducted by SAPOL at 25%, 50% or 100% volumes.

RELEVANT POINTS:

- SAPOL commits to undertake 47,000 drug screening tests a year which has been funded to the amount of \$1,478,869. These tests are conducted on a State-wide basis and are presently undertaken by traffic enforcement officers who are fully trained in all facets of the process. In the rural Local Service Areas general duty officers are also trained to assist traffic enforcement officers in the process as screeners only.
- DPTI have prepared a Cabinet submission for changes to drug driving penalties. Approval to draft has been given by Cabinet for this submission and a draft Bill has been prepared. This draft Bill also contains a request by SAPOL to make changes to the current driver drug testing process by removing the oral fluid analysis (OFA) procedure and replace it with an oral fluid collection procedure. This process will see time and cost benefits for SAPOL and will streamline the drug driving process for positive drivers. It is expected that the new process will commence on 1 July 2017. The new process will provide SAPOL with a product that can be used in the general duty environment.
- COP has requested that budget estimates be considered to increase the number of screenings conducted by SAPOL by:
 - 25%
 - 50%
 - 100%

The budget impact takes into account the increase in screenings, the cost of gloves, sample bags and OFA books.

SAPOL savings from not undertaking a second testing will be redirected in the first instance to meet the higher Forensic Services South Australia (FSSA) costs for providing services against the baseline of 47,000 tests. Any savings above this will be redirected to assist SAPOL achieve efficiency targets.

Therefore any proposed Bilateral bid that increases testing to over the 47,000 base line will have a resource impact on FSSA who will require additional funds that would be the subject of a 2017/18 multi-lateral budget bid, by FSSA, with SAPOL as the lead agency.

Budget Impact

Increase Drug Testing by an additional 25%

This proposal would see drug screenings increase from 47,000 tests per year to 58,750 (an increase of 11,750) tests. The positive test ratio would be 11% leading to a further 1,293 drivers being positive.

Additional expenditure would be as follows:

SAPOL FUNDING	No.	Cost	Total
Existing Funding			\$ 1,478,869.00
Drugs Screens	47000	\$ 27.00	\$ 1,269,000.00

Increase Drug Testing by an additional 50%

This proposal would see drug screenings increase from 47,000 tests per year to 70,500 (an increase of 23,500) tests. The positive test ratio would be 11% leading to a further 2,585 drivers going positive.

Additional expenditure would be as follows:

SAPOL FUNDING	No.	Cost	Total
Existing Funding			\$ 1,478,869.00
Drugs Screens	47000	\$ 25.50	\$ 1,198,500.00

As the total number of screenings will exceed 70,000 tests there is a price reduction on the consumable of \$1.50 per screen¹.

Increase Drug Testing by an additional 100%

This proposal would see drug screenings increase from 47,000 tests per year to 94,000 (an increase of 47,000) tests. The positive test ratio would be 11% leading to a further 5170 drivers going positive.

Additional expenditure would be as follows:

SAPOL FUNDING	No.	Cost	Total

Drugs Screens	47000	\$ 24.00	\$ 1,128,000.00

As the total number of screenings will exceed 90,000 tests there is a price reduction on the consumable of \$3.00 per screen².

CAPACITY TO TEST

Increase Drug Testing by an additional 25%

Under this proposal the additional tests (total +11,750) could be allocated across the metropolitan LSA's only (general duty environment) given the pending change to the drug testing procedure. The targets attributed to the traffic enforcement officers across the State would remain unchanged.

It is proposed that the impact of the additional screenings would only affect the metropolitan LSA's that are currently not required to undertake driver drug testing. This would provide a benefit of drug testing being undertaken on a 24/7 basis in the metropolitan area and would maintain the existing structure for Traffic Support Branch and the rural LSA's. However, the increased workload for general duty officers in the metropolitan area would need to be taking into consideration.

At the present time four (4) metropolitan LSA Commanders have been consulted in respect of the ability for general duty officers to be able to conduct driver drug testing should the program be increased. The LSA commanders were supportive of the proposal however expressed concern about the impact on service delivery due to additional duties. It was suggested that two (2) or three (3) people on each patrol team could be trained and all of the tactical team members. Assistant Commissioner, Metropolitan Operations Service, was consulted and whilst he agreed with the proposal, suggested that the increase should be met, in the main, through the expansion of corporate operations during which the qualified personnel could attend and assist Traffic Support Branch (TSB) personnel.

Increase Drug Testing by an additional 50%

Under this proposal a percentage of the additional tests (total +23,500) could be allocated across the metropolitan LSA's as discussed in the 25% option, with the remainder being allocated across TSB personnel, regional highway patrol and regional LSA's.

This would provide the benefit of drug testing being undertaken on a 24/7 basis State-wide. However, similar impact to the 25% option would be experienced in relation to additional workload.

Increase Drug Testing by an additional 100%

Under this proposal the increase would affect all operational areas.

As detailed in the 50% option the additional tests (total +47000) would need to be allocated across metropolitan LSA, regional LSAs and TSB.

This proposal would have a significant impact on workload on all affected areas. For example, as of 27 January 2017 TSB is already 33.9% under achieved for traffic contacts. Increasing the volume of drug testing will only compound this under achievement.

An option, if this proposal is to be considered would be to implement an additional drug testing group in the southern metropolitan area. By mirroring the existing drug testing group that is based at Parks, which currently undertakes 12500 drug tests per annum, the increase in volume would be effectively reduced across the board.

The following costing provided by Business Services is for a Sergeant and 12 OR's mirroring the existing Driver Drug testing Group.

TRAINING

It is recognised that there are training implications with an increase in driver drug testing. The present courses are a one day course for screening and a two day course for the oral fluid analysis. With the proposed changes to the drug testing process the course will need to be reviewed and will be shortened. Initial consultation with the Academy indicates the course could be two (2) days or less.

FORENSIC SCIENCE SA (FSSA)

Forensic Science SA is a key stakeholder in any change to the driver drug testing volumes. The manager of Toxicology, Mr Chris Kotsakis has been consulted regarding the proposals. Whilst agreeing with the potential increases, he advised that an increase of 50% or more will require the employment of two (2) additional staff, and an additional analysis instrument. No accurate costings can be provided until a determination as to the endorsed option. However, the estimated cost of an additional analysis instrument is in the vicinity of \$500,000.

RECOMMENDATION:

It is recommended that:

1. The Commissioner of Police note the content of the Commissioner's Briefing Paper.

2. The Minister for Police be advised that SAPOL could implement and sustain a 50% increase (rising from 47000 to 70500) in the number of drug tests undertaken on a per annum basis. However, there would need to be an additional budget allocation to SAPOL of \$651,642.50.

Approved / Not Approved

3. The Minister for Police be advised that any increase in drug testing would only be attainable if FSSA are successful in a multi-lateral bid to increase their staff and equipment budget.
