Dear Ms Sandy

Re: Freedom of Information Act application

In reference to your application made pursuant to the Freedom of Information (FOI) Act 1991, access was sought to:

"Documents, specifically reports, and related CCTV/body worn camera/video footage since 1 January, 2019, to the date of this application relating to arrests where the charge was at least "unlawful possession of dangerous drugs" or "unlawful possession of weapons". Please limit to those where the Serious Crime investigation branch was involved. I'd expect dash cam, pol air and any raid footage to be included. If there are five incidents with footage captured, and the related reports, I'd be happy to limit to just that. When undertaking searches, please start from the oldest incidents within the timeframe, to the newest. Please exclude those with legal action pending. Please exclude duplicates, documents that have already been publicly released, media report/articles/releases and correspondence with media. If documents with duplicate information are captured, please limit to just one version of those documents." I confirm I consent to being provided edited copies of documents/footage with personal information such as names and faces redacted/pixilated/blurred."

South Australia Police (SAPOL) located documents, relating to only three (3) matters that fall within the scope of your request. The documents are numbered and described in the following schedule. The schedule contains the details of the determination in compliance with section 23. In particular, note the grounds on which access has been refused, including the reasons which are contained in the schedule. This determination was made on 5 November 2020. It should be noted that offence details falling outside of the scope as appearing on Document 2 have been redacted and marked **Out of Scope**.
