Forward Procurement Plan

Period from 2013 to 2016

South Australia Police has prepared a forward procurement plan for 2013 to 2016 which provides projections for the next three financial years of purchases of goods and services, estimated in excess of \$100,000 (GST exclusive) in value.

The plan has been developed to enable suppliers to be better positioned to respond to South Australia Police procurement needs by receiving advance notice. It is envisaged that the information will encourage a more competitive market and improved supplier planning, bringing benefits to both industry and government.

Description	Estimated approach to the market by quarter	Is there an existing agency or whole of government contract *	Date Current Contract Expires	Contact Officer	Contact Number
