

# Don't Lose It Lock It!

## Locking instructions

Use a D-lock on the inside rear frame triangle and secure to a sturdy fixed structure (designated bike rack).

Use a second lock (cable or heavy chain) to go around the down tube and front wheel and preferably the bike rack as well.

There are a number of different types of locking devices available. Talk with your local bike retailer for further information.

# Don't Lose It Lock It!

## Lock

Purchase good quality locks. Always park and secure your bike in well-lit and populated areas. Always lock the frame. Ensure the lock cannot be lifted over the frame or the structure it is being secured to.

## Protect

Engrave and mark your bike frame (near the serial number) with an ultraviolet (UV) pen, microdot or by other permanent means with your driver's licence number, prefixed by the letter 'S' for South Australia e.g. S123456. Mark all accessories including helmet, lights, pump, saddle, etc.

## Record

Details of your bike, including a photo, can be recorded on the SAPOL Bike Passport. Collect one from your local police station or download a copy at [www.police.sa.gov.au](http://www.police.sa.gov.au)

Never leave your bike unattended and unlocked, even for a short period of time. When at home, secure your bike in a locked shed or inside your house.

**If your bike is stolen, report it immediately to the Police Assistance Line on 131 444.**

**For further information contact your local police station or visit [www.police.sa.gov.au](http://www.police.sa.gov.au) to download a copy of the SAPOL Bike Passport.**
